FCC COMPLIANCE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. To comply with the FCC RF exposure compliance, no change to the antenna or device is permitted. Any change to the antenna or device could result in the device exceeding the RF exposure requirement and void a user's authority to operate the device.

For LPM-11000B (Valve Box)
To comply with FCC and Industry Canada RF exposure limits for general population/uncontrolled exposure, the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 10mm from all persons and must not be operating in conjunction with any other antenna or transmitter, except in accordance with FCC multi-transmitter product procedures.

For LPM-11000 (Power Supply)
To comply with FCC and Industry Canada RF exposure limits for general population/uncontrolled exposure, the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 60mm from all persons and must not be operating in conjunction with any other antenna or transmitter, except in accordance with FCC multi-transmitter product procedures.

USER GUIDE

WARNING: Read all instructions before use to avoid injury and reduce the risk of burns, fire and electrical shock. Improper use of product can result in serious injury or death. Follow the safety information in this product instruction sheet.

Congrats on your new it™ bed. Follow these 6 steps for easy setup or see how to assemble it at **itbed.com/setup**

DOWNLOAD IT
If you haven't already, get the free SleepIQ® app from Google Play or the iTunes Store®.

1

UNPACK IT
The it™ bed requires a solid, flat surface. If you're using a bed frame and base, set them up before unboxing the mattress.

2

UNROLL IT
Set the mattress on your base and remove it from the bag. Let it unroll (it will inflate on its own in about 15 minutes). Once inflated, ensure the green it™ bed label is at the foot of the bed.

3
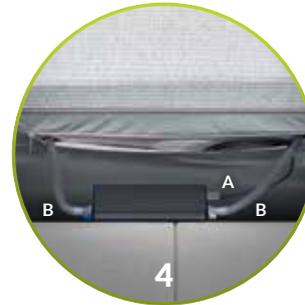

UNZIP IT
With the mattress fully inflated, unzip the pocket at the foot of the bed. Pull the cord (A) out of the pocket and plug it into the ActiveComfort™ technology (ACT) module. Connect the two color-coded air hoses (B) from the pocket to each side of the ACT module. Tuck the module into the pocket and zip it closed.

4

ACT Module

POWER IT
Pull out the power cord from the opening at the head of the bed, plug it into the power supply module and place the module on the floor. Plug the power cord into the power supply module and into a wall outlet. Two lights on the power supply module will blink. Mattress setup is complete.

5

Power Supply Module
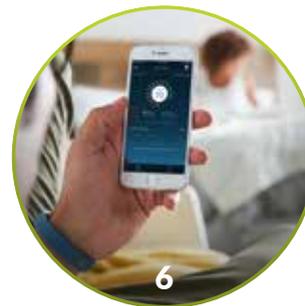

CONNECT IT
Open your SleepIQ® app on your smart device and follow the instructions to connect your system. All five icons on the power supply module will light up. Now you're ready to sleep on your new it™ bed.
