CREATOR OF THE SLEEP NUMBER® BED

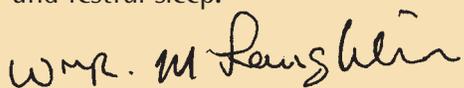

# Congratulations!

Congratulations on your purchase of The Sleep Number Bed by Select Comfort™! You're about to join over three million people who have traded their innerspring mattress for the most innovative sleep surface ever. The technology behind the SLEEP NUMBER® bed is one that recognizes the unique sleeping needs of every individual, which vary according to comfort preference, body type, height, weight, sleeping position and other health and lifestyle factors. By creating a fully personalized sleep surface, your new Sleep Number® bed offers you a customized comfort that will improve your quality of sleep forever.

You can look forward to years of enjoyment with your new Sleep Number® bed, which is the latest generation of sleep comfort and technology. What awaits you is a lifetime of better, more rewarding sleep.

Once you experience, night after night, the comfort and support of our unique bed system, we are confident that you will be a convert to the sleep revolution we began in 1987. In fact, there are now so many satisfied Sleep Number® "revolutionaries" throughout the country that *Furniture/Today* ranked us the number one bedding retailer in the U.S.A. for five years running. We invite you to tell your friends and neighbors about this revolutionary product that can help them attain the most comfortable sleep possible.

We thank you for your purchase, and wish you years of personal comfort and restful sleep.

William R. McLaughlin  
President & CEO  
Sleep Number®: 55

# con

## Sleep Number® Bed Assembly

The section that begins on page 4 takes you step by step through the assembly of your SLEEP NUMBER® bed.

page 4

## Finding Your Sleep Number®

Once your foundation and mattress are set up, go to the section on pages 6–9 for instructions on how to adjust the comfort level to your Sleep Number® for a perfect night's sleep.

page 6

## Mattress Care & Warranty

On page 10, you'll find answers to some commonly asked questions about the care of your Sleep Number® bed. Please see page 11 for warranty information.

page 10

# tents

You'll want to keep this manual in a convenient place after you've assembled your Sleep Number® bed. Please refer to it if you move, for cleaning procedures or if you have any other questions.

*Setting up your SLEEP NUMBER® bed is the first step toward a customized sleeping experience. It can be quickly and easily completed without tools.*

## before you begin

### Carefully Check the Contents of Your Bed

If you are missing any items listed on the following page, please call Customer Service.

### Orientation

These instructions refer to “left” and “right” as if you are standing at the head of the bed looking toward the foot of the bed.

### Prepare Your Foam Pad(s)

If you purchased a bed with Foam Comfort Pad(s) and/or a Foam Base Pad, carefully open the pad(s) and set aside. NOTE: At least 20 minutes of expansion time is needed.

### Foundation

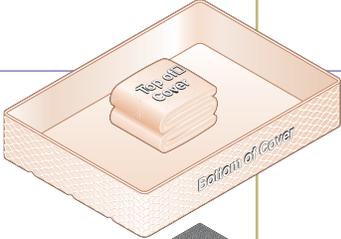

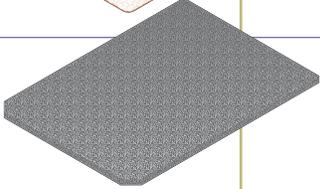

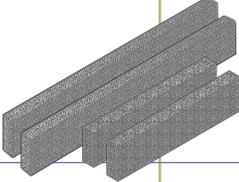

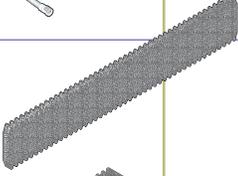

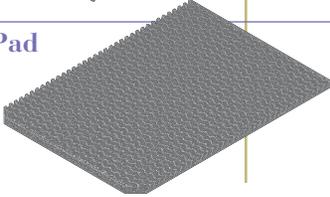

Position the foundation on your bed frame. The mattress will sit directly on top of the foundation.

*Important Note!*

*The bed feels like it is custom molded to my body. A truly unique product!*

*Robert  
Holbrook, NY*

## 1

### Position Mattress Cover

- Place **MATTRESS COVER** (quilted side up) on top of the foundation or bed platform.
- Unzip the top of the cover and set it aside. For the Personal Preference™ IV and V models, unzip the lower **DUVET** zipper (A) first, then set Duvet aside.
- Holes in the bottom of the cover should be at the head of the mattress and the **SLEEP NUMBER**™ bed label will be at the foot of the mattress.
- Place a **CORNER LOCK**™ in each corner of the mattress cover.

## 2

### Install Foam Border Walls

- Place the two long **FOAM BORDER WALLS** along the left and right sides of the Mattress Cover. The ends of the Foam Border Walls should fit snugly inside the Corner Lock™ and run the entire length of the bed.
- Place the shorter Foam Border Walls in between the longer border walls at the head and foot of the bed.
- Make sure the border walls are connected securely and squarely.

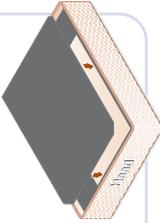

## 3

### Install Foam Base Pad

Personal Preference™ II, III, IV and V Models

- Carefully shake out the pad prior to placing in position.
- Place the **FOAM BASE PAD** inside the mattress cover with the clipped ends at the head of the bed. The pad should be evenly positioned between the Foam Border Walls.

## 4

### Install Air Chamber(s)

- Lay the **AIR CHAMBER(S)** in the mattress cover so the **Hose Connector(s)** are on the bottom and face the head of the bed.
- Connectors will roughly align with the small openings at the base of the mattress cover.

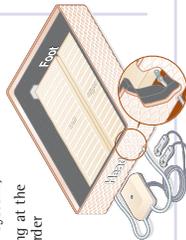

Dual chamber model shown.

## 5

### Connect Firmness Control™ System

Personal Preference™ I, II, and III Models

- Place the **FIRMNESS CONTROL™ SYSTEM** on the floor at the head of the bed and plug the power cord into an electrical outlet. (Personal Preference™ II and III Models: also plug the power cord into the Firmness Control™ System.)
- Pass the end of each hose through the small opening at the base of the Mattress Cover and under the Foam Border Wall to its corresponding chamber.
- (The hose marked "L" connects to the left chamber, unmarked hose to the right.)
- Press hose connections together until they "click."

Personal Preference™ IV and V Models

- Place the **Firmness Control™ System** on the floor at the head of the bed. Plug the power cord into the Firmness Control™ System and then into an electrical outlet. (You will hear several clicks indicating there is power.)
- There are two hoses for each air chamber (one large and one small). Pass the end of each hose through the small opening at the base of the Mattress Cover and under the Foam Border Wall to the corresponding chamber.
- Connect the hose marked with "L" and the adjacent smaller hose to either of the connections on the left chamber. Do the same using the other remaining two hoses on the right chamber.
- Press hose connections together until they "click."

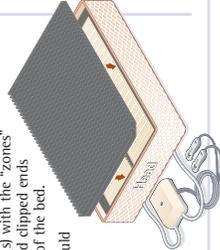

## 7

### Install Foam Comfort Pad

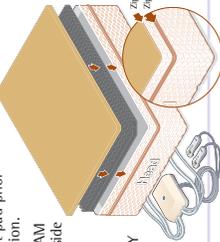

Personal Preference™ I, II and III Models

- Carefully shake out the pad prior to placing in position.
- Place the **FOAM COMFORT PAD** on top of the Air Chamber(s) with the "zones" facing up and clipped ends at the head of the bed. The pad should rest on top of the air chamber(s).

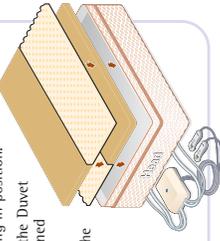

Personal Preference™ IV Model

- Zip the Duvet cover onto the mattress (Zipper A).
- Unzip the top Duvet zipper (B) and set aside.
- Carefully shake out pad prior to placing in position.
- Place the **Gray FOAM COMFORT PAD** inside the Duvet pocket with the textured side facing up.
- Place the **MEMORY FOAM COMFORT PAD** on top.

Personal Preference™ V Model

- Zip the Duvet cover onto the mattress (Zipper A).
- Unzip the top Duvet zipper (B) and set aside.
- Carefully shake out pad prior to placing in position.
- Place the **Foam Comfort Pads** inside the Duvet section (3" **INTRALUX™ PAD** is positioned with the textured side up).

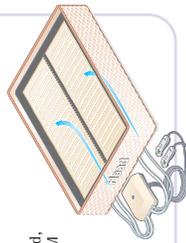

Each sleeper can customize their side of the mattress by choosing how to position the foam pads. Place the 1" **MEMORY FOAM PAD** on top for a more firm, supportive surface. Place the 3" **Intralux™ foam pad** on top for a more plush surface.

## 6

### Inflate Air Chamber(s)

For the Personal Preference™ II, III, IV and V Models, press any button on the remote to activate the hand control. Press the **Δ** arrow several times to set the firmness to "20." Inflation may take about 10 minutes. For the Personal Preference™ I Model, press **L** or **R** to activate the hand control, then simply press and hold the "firmer" button on the remote to begin inflating the mattress.

- For dual chamber models, after the first chamber is inflated, repeat for second chamber. Then, insert the **CENTER FOAM WALL** between the chambers, centering it between the head and foot of the bed.

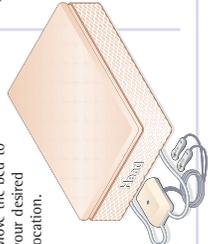

## 8

### Final Steps

Personal Preference™ I, II and III Models

- Zip on the top of the Mattress Cover.
- Move the bed to your desired location.

Personal Preference™ IV and V Models

- Zip on the Duvet cover (Zipper B).
- Move the bed to your desired location.

**You're Done!**  
Now go to the Finding Your Comfort Level section to customize your Sleep Number bed.

*Where are the Caps for Air Chamber(s)?*

The caps are in the Firmness Control™ System box. Please store these in case you should ever want to disassemble your bed and temporarily cap your air chamber(s).

*What if my Foam Comfort Pad appears to be too small or irregular?*

Gently shake the pad as you place it on your mattress and it will recover its full size overnight.

*What do I do if the motor doesn't run?*

Make sure the power cord is securely plugged into the pump and the wall outlet. Check to see if the power cord is plugged into an outlet which has power and is not connected to an on/off wall switch.

*Will my bed deflate if there is a power surge or power loss?*

No, your mattress will maintain its firmness. To protect your Firmness Control™ System, we do recommend using a surge protector.

*What if I notice a rubber smell from the air chamber?*

The odor you may smell is non-toxic and will fade over time. To minimize the smell, allow the air chamber to air out for a few hours and then lay a couple of dryer sheets on top of the air chamber.

*What if I feel like I'm rolling toward the edge or toward the center of the mattress?*

Although rare, these sensations could potentially be experienced if one side of the mattress is set quite firm and the other side quite soft. Call Customer Service for a remedy to this situation if it is bothersome to you.

*Congratulations on the successful assembly of your SLEEP NUMBER® bed. Now you are ready to find your comfort level.*

## before you begin

Unlike innerspring mattresses, the Personal Preference™ Sleep Number® bed can be personalized at any time to the changing condition of your body. Some reasons to alter the firmness of your bed include:

- strained muscles
- pregnancy
- back pain
- bad sunburn
- weight change
- new sleep position

In addition to personalizing your bed for a great night's sleep, you can also alter the mattress firmness when you wake in the morning in order to:

- facilitate getting out of bed, if needed
- achieve a “fuller” bed appearance

### Remote Options

- If you purchased a Firmness Control™ System (A), see page 7.
- If you purchased a Firmness Control™ System (B or C), see page 8.

### Dual Adjustability

If you purchased a dual chamber model, you have the ability to personalize each side of your Sleep Number® bed. Since no two body types are the same, each sleep partner should find their own comfort level.

If your model came with one remote for a dual chamber bed, the “L” button on the remote corresponds to the left side of the bed (left is determined when laying on your back on the bed). The “R” button corresponds to the right side.

**A**  
See page 7  
Wired remote

**B**  
See page 8

**C**  
See page 8

## Personal Preference™ I Firmness Control™ System

### Setting Your Sleep Number®

STEP 1. Lie on The Sleep Number Bed by Select Comfort™ in your normal sleep position, holding your remote.

STEP 2. Press the L or R button on the remote to “wake” it up. Within 3 seconds, it will display the current Sleep Number® setting. If you’d like to make the bed softer or firmer press and hold the ▲ or ▼ button until you’re comfortable. When you release the button, the new Sleep Number® setting will be displayed. Continue until perfectly comfortable. The number displayed is your personal Sleep Number®.

If you would like to experiment further with your Sleep Number® setting, refer to the information on the inside of page 9. It sometimes takes several nights of sleeping at different settings to discover your ideal Sleep Number®.

### How it Should Feel and Look

As you are customizing The Sleep Number Bed by Select Comfort™ for your optimum comfort level, lie down on your mattress in your normal sleep position. Now, determine how you feel as compared to the diagrams below and make adjustments to your firmness or pillow if needed.

### evaluate your comfort level

#### RIGHT

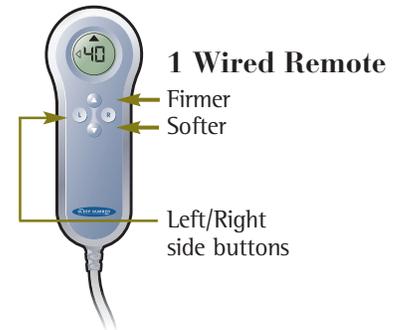

- Neck and back are aligned in the same position as when you are upright.
- No discomfort at shoulder and hip pressure points.
- You feel the mattress support the small of your back (back sleepers) or the curve of your side (side sleepers).

#### WRONG

- Body alignment is not straight.
- Your pillow\* makes your head tilt at an angle to the rest of your body.
- You feel discomfort from pressure at your neck, shoulders, back, hips or legs.

\* Your pillow should help keep your body aligned properly, otherwise it may interfere with your ability to sleep comfortably. Visit our Web site or one of our stores to see the extensive selection of innovative pillows we carry.

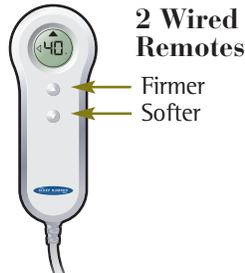

*My wife sleeps with her side at 80, while I sleep with the setting at 45.*

*No other bed offers total comfort like this.*

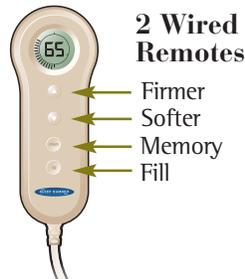

*John D.  
Wood Dale, IL*

## Personal Preference™ II, III, IV and V Firmness Control™ System

### Personal Preference™ II and III

### Personal Preference™ IV and V

### Setting Your Sleep Number®

- STEP 1. Lie on The Sleep Number Bed by Select Comfort™ in your normal sleep position, holding your remote.
- STEP 2. Press any button on the remote to “wake” it up. It will display the current Sleep Number® setting. If you have an idea of what your Sleep Number® is, enter it on the remote by pressing the firmer or softer buttons until the number you desire is displayed. The display will go back to your current Sleep Number® and then the adjustment will begin. Remain still until the change is complete. When the adjustment is complete, the Sleep Number® will stay lit for 5 seconds and then the display will turn off.

If you decide to change your Sleep Number® before the firmness adjustment is complete, just press any button and the Firmness Control™ System will stop. Then, go to the Sleep Number® you want.

On the Personal Preference™ II and III Models, there are two directional arrows. The ▲ or ▼ will indicate the type of change being made (firmer or softer). The ◀ or ▶ will indicate which side of the bed is being adjusted.

On the Personal Preference™ IV and V Models, the Sleep Number® and number of reference bars displayed will change as the firmness changes.

*During my pregnancy  
this bed has been super!*

*It adjusted as I grew,  
helping me get to sleep  
during the most*

*sleepless times.*

*Therese V.  
Abilene, TX*

It sometimes takes several nights of sleeping at different settings to discover your ideal Sleep Number®. If you would like to experiment further with your Sleep Number® setting, refer to the information on the inside of page 9.

## Personal Preference™ IV and V Firmness Control™ Systems Also Include:

### Memory Feature

This feature allows you to set your favorite Sleep Number® into memory and recall it at any time.

- Press the up or down arrow to “wake up” the remote.
- Adjust the bed to the Sleep Number® you’d like as your memory setting.
- Once at the desired Sleep Number®, press and hold the MEM button for 3 seconds.
- “Memory Set” will appear above the Sleep Number® when it’s set.

Follow these steps to change the memory setting at any time.

### Recalling the Memory

- Press the MEM button 2 times within 5 seconds. The first time you press MEM it will show you the Sleep Number® currently in the memory setting, the second time it will begin changing the Sleep Number® to that memory setting.

As the adjustment is taking place, the number displayed and tick marks will indicate the change.

### Full-Fill Feature

This feature will allow you to inflate one or both chambers to a Sleep Number® of 100.

- On one remote, press and hold the FILL button for at least 2 seconds. This chamber will begin filling immediately.
- To fill the second chamber, on the other remote, press and hold the FILL button for at least 2 seconds. This chamber will fill to 100 when the first chamber is full.

To stop the fill feature at any time, press any button on the remote.

Class B Device Statement: (Section 15.105 (b) of the FCC Rules)

“Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

## mattress care

### Mattress Care

The cover of your SLEEP NUMBER® mattress may be spot cleaned with carbonated water or mild detergent. Do not dry clean the mattress cover or put it in a washing machine. Also, please do not apply stain-guard, as it may cause yellowing of the fabric.

Select Comfort is a leader in the industry in the use of materials designed to inhibit the growth of allergens or microorganisms that, in rare circumstances, can form inside any mattress, bedding, pillow or upholstered product.

Advanced antimicrobial safeguards are incorporated into every Sleep Number® bed. Key components of the mattress have been treated to protect the bed from contaminants such as mold, mildew and bacteria growth. The unique, zip-open design of the Sleep Number® bed allows you to easily open and view the inside of your bed, and ventilate or vacuum, if you choose.

In rare instances under the right conditions, mold or mildew can form inside many types of mattresses, bedding or upholstered products. Should this condition occur in your mattress, please contact our customer service department so we can work with you to return your bed to factory fresh condition. If you have particular sensitivities to dust mites, mold or mildew, you should exercise care to minimize any direct exposure to these allergens. Select Comfort is dedicated to your sleep and satisfaction, and the unique, modular construction of the Sleep Number® bed makes it easy for us to remedy the situation for you.

### Transporting Your Sleep Number® Bed

Your Sleep Number® bed is lighter than any conventional bed, making it much easier to move. If you are transporting your bed, we recommend complete disassembly and packing in protective boxes. If you are using professional movers and want to keep the chambers inflated, use the caps provided to cap off the air chambers, and place your mattress and foundation in mattress packing boxes. In either case, be sure to box and protect your Firmness Control™ System. Our Customer Service Department can also provide additional tips on packing.

### Important Note Regarding Use of the Sleep Number® bed in RVs:

Select Comfort manufactures a unique Sleep Number® bed model that complies with Federal Motor Vehicle Safety Standards for RVs and automobiles. Rapid changes in altitude may affect the air pressure inside the mattress. The air chamber may be damaged if the pressure becomes too great. If you plan to travel with your Sleep Number® bed into mountainous regions, either (1) temporarily disconnect the mattress from the pump hose to allow air to escape or (2) partially deflate the mattress chamber to a Sleep Number® of 20.

### Creating a Healthy Sleep Environment

An estimated 50 million Americans suffer from allergies, and the bedroom presents some especially difficult challenges. A few simple steps you can take to create a healthy sleep environment include:

- ✓ Use a dehumidifier to reduce any potential mold or mildew growth. Keep humidity levels under 60 percent.
- ✓ Use a high-quality mattress pad to protect your mattress from moisture. You may want to consider a waterproof mattress pad if you perspire heavily while sleeping.
- ✓ Use allergen covers on pillows and mattresses to reduce dust mites, which can trigger allergies and asthma. Wash bedding weekly in hot water.
- ✓ Vacuum the bedroom regularly, using a high-quality vacuum cleaner such as one with a HEPA filter, one that does deep cleaning, or a central vacuum system.
- ✓ Wait 20-30 minutes before making your bed each morning, turning the covers back and allowing the mattress to air out for a bit.
- ✓ If possible, avoid placing your bed on an outside wall or above an air conditioning or heating vent, which can cause condensation and increase the likelihood of mold growth in many mattresses.
- ✓ You could also use a high-quality electronic air purifier to remove additional airborne particulates from the bedroom.

Please note: Ionic air purifiers ARE NOT recommended for use with the Sleep Number® bed, as they can degrade components of the bed over time.

## Defective or Damaged Components

If any component of the mattress or foundation is found to be defective in materials or workmanship within first two years of the original purchase date, they will be replaced by Select Comfort at no cost to you. Within the first two years, all shipping charges to replace a defective component will be covered by Select Comfort.

If any component of the mattress or foundation is found to be defective in materials or workmanship after two years from the original purchase date, the terms of the limited warranty below will apply. After two years from the date of purchase, you will be responsible for the cost of shipping the defective component back to Select Comfort and any related costs. **Contact our Customer Service Department at 1-800-318-2231 for troubleshooting assistance and if you need to process the replacement order.**

We recognize the fact that components may break, become soiled or unusable and may not be covered under the warranty. As long

as you own our bed and can provide proof of purchase, you can purchase replacement components. All component sales are final and carry a 2-year Limited Warranty from the purchase date. Product discounts and accessory promotions do not apply to components. Call our Customer Service department for current pricing and to process the component purchase.

## Return Policy

We hope you are completely satisfied with your Personal Preference™ SLEEP NUMBER® bed, but if you are not, **contact the retailer where you purchased the product.** They will be able to provide you with further details.

## LIMITED WARRANTY

### What is covered:

- Select Comfort warrants that your mattress and/or foundation will be free from defects in materials and workmanship for a period of 20 years from the original purchase date.
- Warranty is limited to product repair or replacement only.

### What is not covered:

- Conditions arising from normal wear and tear. (Conditions arising from normal wear and tear include, but are not limited to: mattress cover compression, foam compression, or discoloration of components.)
- Damage from tampering with any component or from opening the Firmness Control™ System.
- Damage from misuse or abuse of the warranted product or component.
- Damage from laundering or dry-cleaning.
- Acts of God, such as but not limited to lightning damage.

### What you must do:

- Return the warranted product or component in sanitary condition to an authorized SELECT COMFORT® service center. Select Comfort will incur the cost of shipping up to two years after the original purchase date; after two years, the return shipping to Select Comfort will be at the customer's expense.
- Please telephone our Customer Service Department at 1-800-318-2231 to locate the nearest authorized service center and arrange for the return of the warranted product or component.

### What we will do:

- Select Comfort, at its option, will repair or replace the defective product or

component at a cost to the original purchaser based on the following table. The "price" is the price of the defective product or component at the time the warranty claim is made, or the price of a comparable product or component if the original product or component is no longer in production.

Years After Original Purchase Date	Original Purchaser's Cost
Up to 2 years	No Cost
2-20 years	20% plus 4% of price for each year from original purchase date.

- For example, if a warranty claim arises 12 years after the original purchase date, the cost to the original purchaser would be 68% of the price (that is, 20% plus 4% for each of the 12 years) and Select Comfort would be responsible for the remaining 32% of the price.
- Select Comfort reserves the right to substitute products or components of equal or better quality, and to use or deliver refurbished products or components in the repair or replacement of any product under this limited warranty.

### What will void this warranty:

- Tampering with any component or opening the Firmness Control™ System and its hand control unit.
- Misuse or abuse of the warranted product or component.
- Sale, transfer or other disposal of the warranted product or component.

### Limitations:

- Your exclusive remedy, IN LIEU OF ALL INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES, INCLUDING FOR NEGLIGENCE, is limited to repair or

replacement of any product or component deemed to be defective under the terms and conditions stated above. Select Comfort will bear no other damages or expenses.

- Customer maintains responsibility for installation of parts replaced under terms of the warranty.
- Select Comfort reserves the right to refuse to repair or replace any product or component that is returned in an unsanitary condition.
- This Limited Warranty applies only to the product as used in the United States and Canada. It is not applicable in U.S. territories or other countries.
- This Limited Warranty is non-transferable.
- Repair or replacement of a product or component under the terms of this limited warranty in no way lengthens the limited warranty period.
- ANY IMPLIED WARRANTIES APPLICABLE TO THIS PRODUCT, INCLUDING ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED IN DURATION TO THE DURATION OF THIS WRITTEN LIMITED WARRANTY.

Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the above limitations may not apply to you. This warranty gives you specific legal rights and you may also have other rights, which vary from state to state.

All claims relating to the limited warranty of Select Comfort® products should be made by contacting Customer Service at 1-800-318-2231 or writing to Select Comfort Customer Service, 6105 Trenton Lane North, Minneapolis, MN 55442.

Help is just a phone call away.
